

# MSC GROUP

The MSC Group is proud to be a world leader in transportation. Despite having a global presence and large-scale operations, the MSC Group is, above all, a family company, sharing a common heritage and strong values. MSC is a business built on a genuine passion for the sea, on undeniable nautical heritage, and on an unflinching commitment to people and communities.

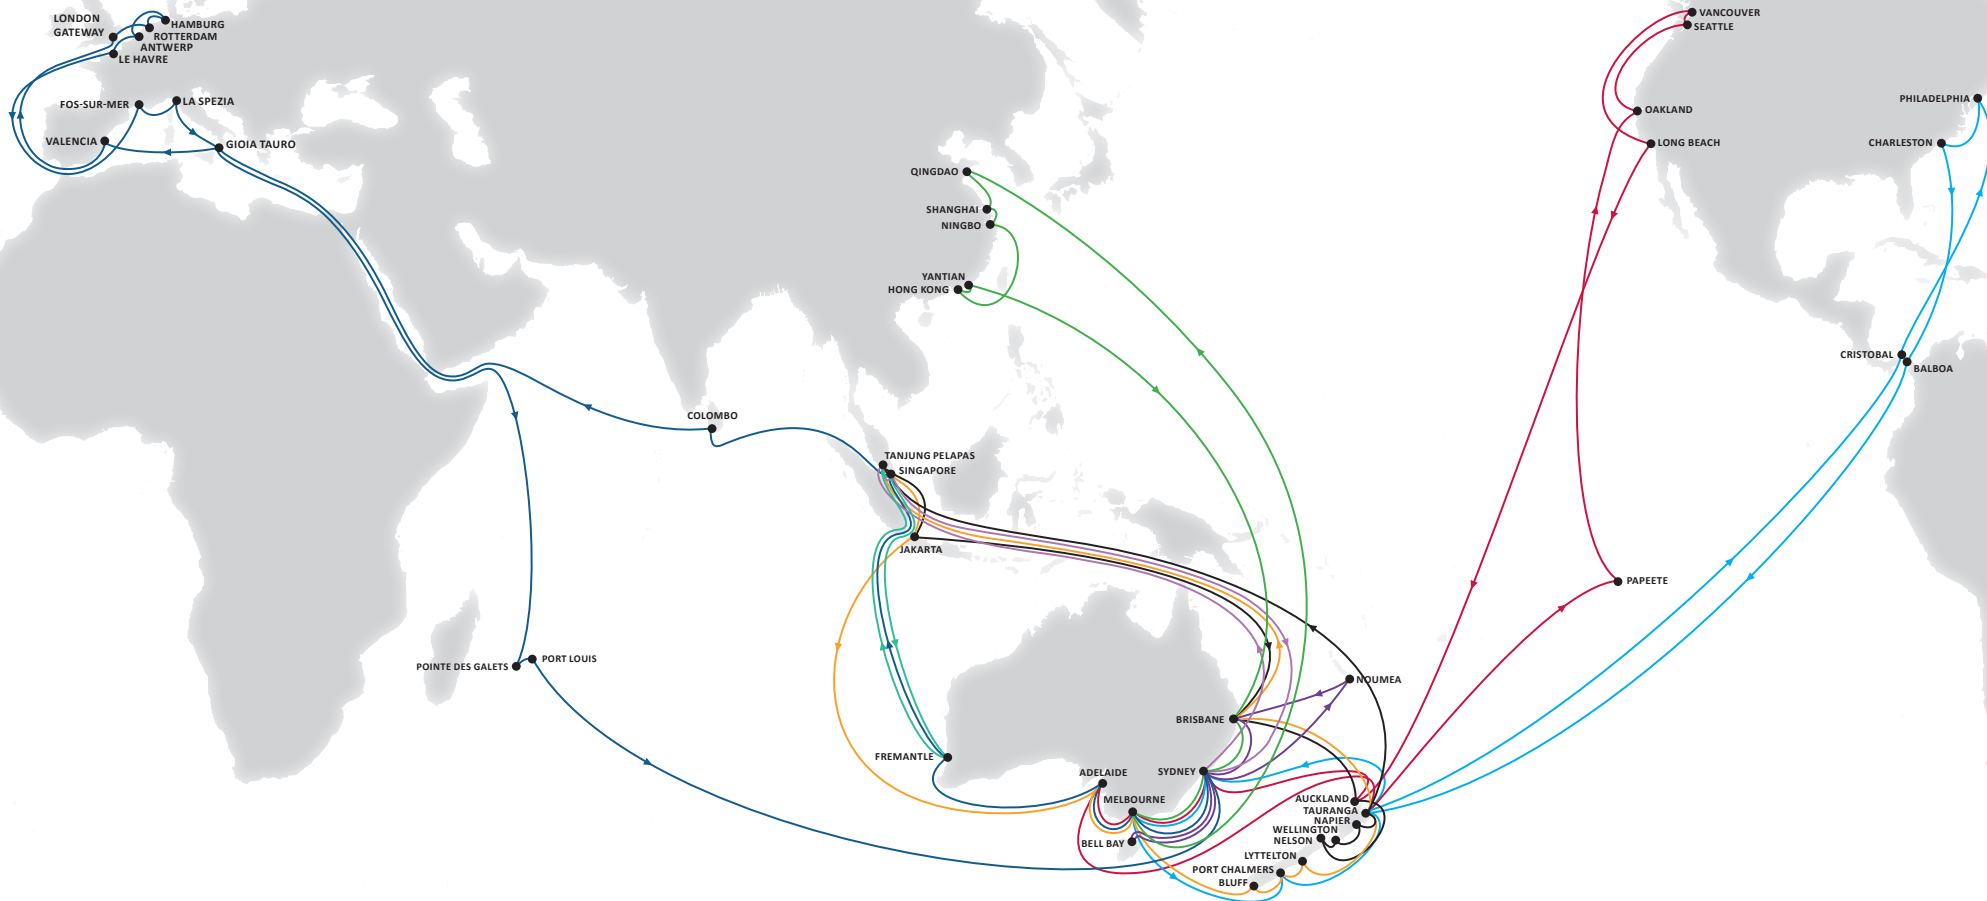

Today, MSC is recognised and respected as a global leader in container shipping and are pleased to acknowledge the roots which set them apart. Having evolved from transporting foot passengers in beautiful Naples, to becoming a single-vessel cargo operation, to growing into a 700-vessel business with offices in 155 countries. MSC's constant growth has allowed them to strategically increase their portfolio of transportation solutions, not only at sea but in rail, road, and terminal infrastructure.

MSC Australia offers nine services, including the Australia Express service which is a premium weekly service providing Australia's only direct link to Europe and the UK. MSC's global coverage provides shippers access to all key global markets

MEDLOG is the logistics arm of MSC offering a one-stop-shop for global inland solutions supporting the ever-growing customer base. As one of the world's geographically widest logistics and supply chain providers, MEDLOG offers inland logistics platforms, warehouses, trucks, locomotives, and barges. These are all strategically located, facilitating logistics efficiency for the benefit of their customers. MEDLOG acts as an independent company in over 70 countries, offering door-to-door tailored solutions as well as large off-dock storage facilities.
